Information

Bart's BioResource (BBR) news and views is a monthly newsletter that showcases our research recruitment for the different layers of consent (data, biosamples, tissue donation \pm future contact) and our key locations where consenting currently takes place.

The *BBR* newsletter shares information on new sub project developments and also provides patient and staff feedbacks relevant to our research project.

The *BBR* can often support disease specific research projects and questions. If you would like to find out more or have any comments on this newsletter, please contact maudrian.burton@bartshealth.nhs.uk

Access to the project can be obtained by completing the below link

<https://redcaphh.c-cloudservices.net/surveys/?s=yzBAF4pBrY>

Patient Feedback

“I keep getting asked every time I see the doctor, do you have a system to show that I’ve consented previously?”

“If I can help research, then I am happy to help.”

“Thank you for your help today, and I am more than happy to help you with your research.”

Staff Feedback

It was really good to have you in clinic today. The patients were impressed that they could participate in research and have their routine clinical bloods taken at the same time, especially as we are running late. (Anonymous)

This is an interesting project. I wish your team well. Keep up the good work. (Anonymous)

Cumulative Recruitment

Barts BioResource cumulative recruitment
Total consent N = 20972; Total re-consent N = 1983
