

Barts BioResource March 2018 Newsletter

Information

Bart's BioResource (BBR) news and views is a monthly newsletter that showcases our research recruitment for the different layers of consent (data, biosamples, tissue donation \pm future contact) and our key locations where consenting currently takes place.

The *BBR* newsletter shares information on new sub project developments and also provides patient and staff feedbacks relevant to our research project.

The *BBR* can often support disease specific research projects and questions. If you would like to find out more or have any comments on this newsletter, please contact <u>maudrian.burton@bartshealth.nhs.uk</u> Access to the project can be obtained by completing the below link <u>https://redcaphh.c-cloudservices.net/surveys/?s=yzBAF4pBrY</u>

" I feel happy that I can support a research study, I have wanted to participate in research but did not want to travel back to the hospital. Being able to opt out of future contact was ideal." Anonymous participant

"The information on the Patient Information Sheet differs from the consent form-I am not comfortable joining the study because of this."

Anonymous patient
