Barts **Bio**Resource

November 2018 Newsletter

Information

Bart's BioResource (BBR) news and views is a monthly newsletter that showcases our research recruitment for the different layers of consent (data, biosamples, tissue donation \pm future contact) and our key locations where consenting currently takes place.

The *BBR* newsletter shares information on new sub project developments and also provides patient and staff feedbacks relevant to our research project.

The *BBR* can often support disease specific research projects and questions. If you would like to find out more or have any comments on this newsletter, please contact maudrian.burton@bartshealth.nhs.uk

Access to the project can be obtained by completing the below link

Patient Feedback

“I am sympathetic to the idea of your project. However, I feel like this is just a waiver; I do not feel confident in handing over my information unless you can tell me which sub-studies I will and will not be included in.”

Anonymous Patient

“I am asked to consent every time I visit Barts. Do you know who you’ve approached previously?”

Anonymous Patient

“I am a participant in UK Biobank, the idea of your study is very clever.”

Anonymous Patient

Staff Feedback

“I have not heard much about your research study before, could researchers come to our department and present their work?”

Anonymous staff

“I am eager to have all my patients recruited to the BioResource, is it possible for my registrars to consent too?”

Anonymous staff

Cumulative Recruitment

Barts BioResource cumulative recruitment

Total consent N = 19083; Total re-consent N = 1578

Recruitment to Respective Stratum

Type of consent

Proportion of Blood Sample Collection

Completed blood collection out of all patients consented for blood

Proportion of Tissue Sample Collection

Barts Health
NHS Trust

Completed tissue collection out of all patients consented for tissue
