Barts **Bio**Resource

September 2018 Newsletter

Information

Bart's BioResource (BBR) news and views is a monthly newsletter that showcases our research recruitment for the different layers of consent (data, biosamples, tissue donation \pm future contact) and our key locations where consenting currently takes place.

The *BBR* newsletter shares information on new sub project developments and also provides patient and staff feedbacks relevant to our research project.

The *BBR* can often support disease specific research projects and questions. If you would like to find out more or have any comments on this newsletter, please contact maudrian.burton@bartshealth.nhs.uk

Access to the project can be obtained by completing the below link

Patient Feedback

“I am happy to donate a sample of tissue. I had this condition my entire life and to know I am contributing to research, which will improve the health of sufferers of similar condition is amazing”

Anonymous participant

“I would rather not give information to people, I do not have to give to”.

Anonymous participant

“Even if I don’t sign, there are more people to sign. So I will not sign”.

Anonymous participant

Staff Feedback

“The research team have been very kind and helpful to our department. You guys deserve a prize”

Anonymous staff

You are part of the family now”.

Anonymous staff

“Do not want to be running late”.

Anonymous staff

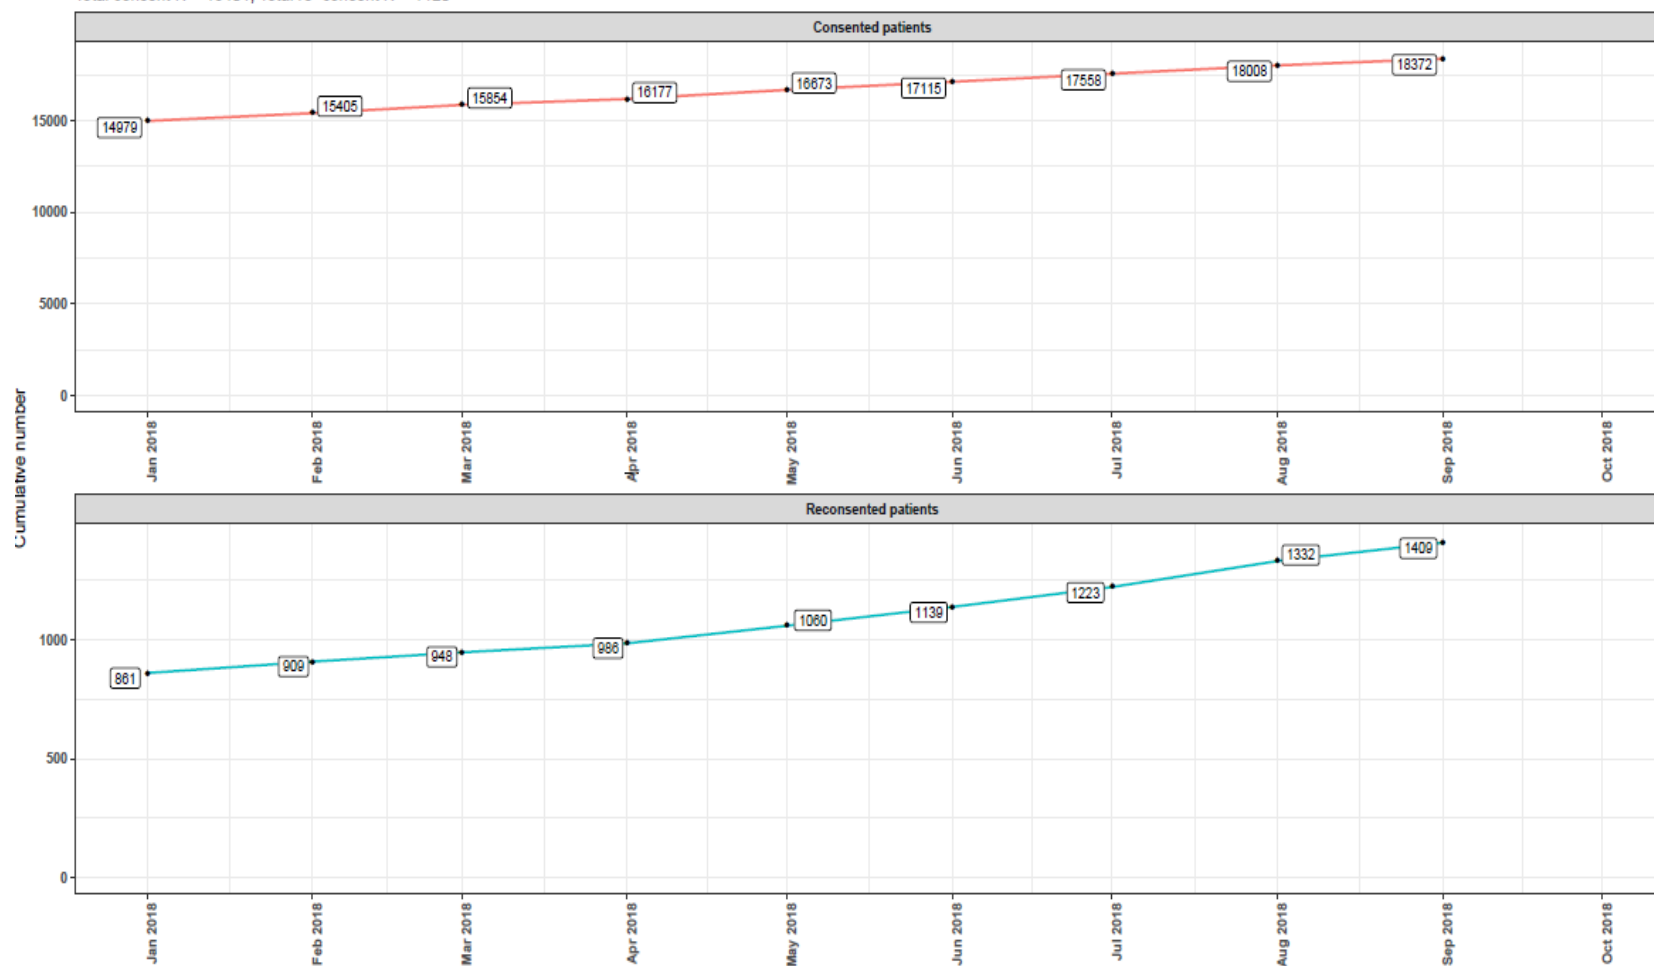

“Would be nice to have research integrated in our department”.

Anonymous staff

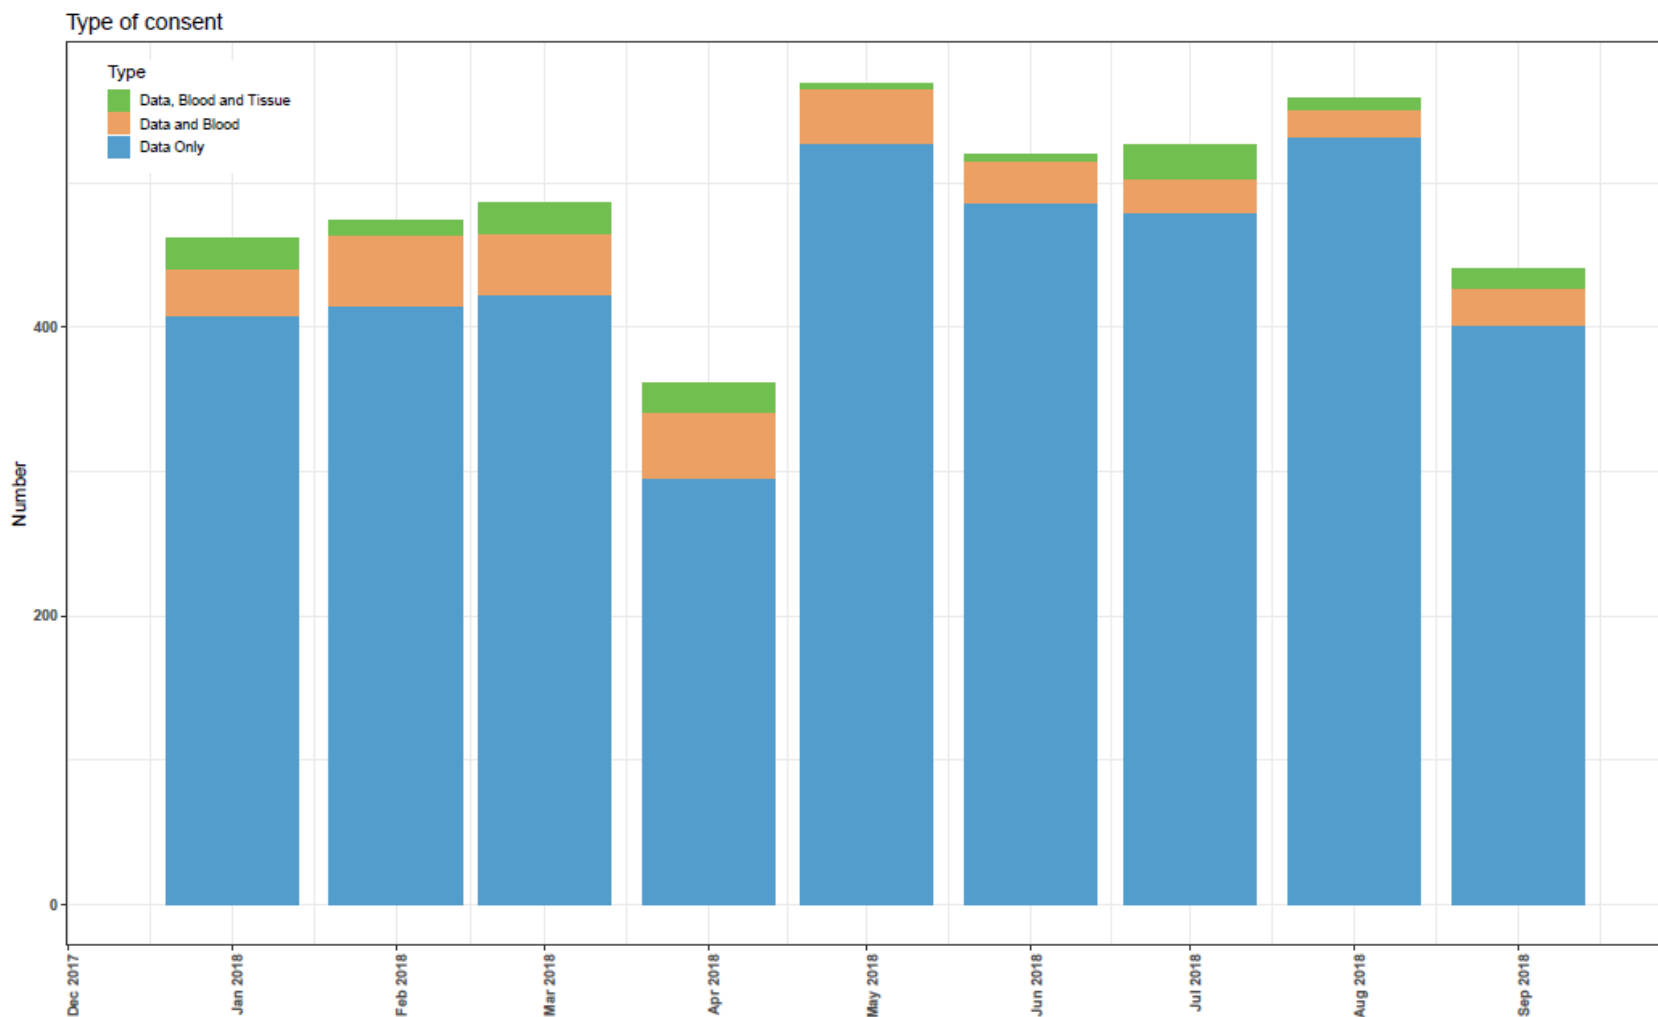

Barts BioResource cumulative recruitment

Total consent N = 18401; Total re-consent N = 1420

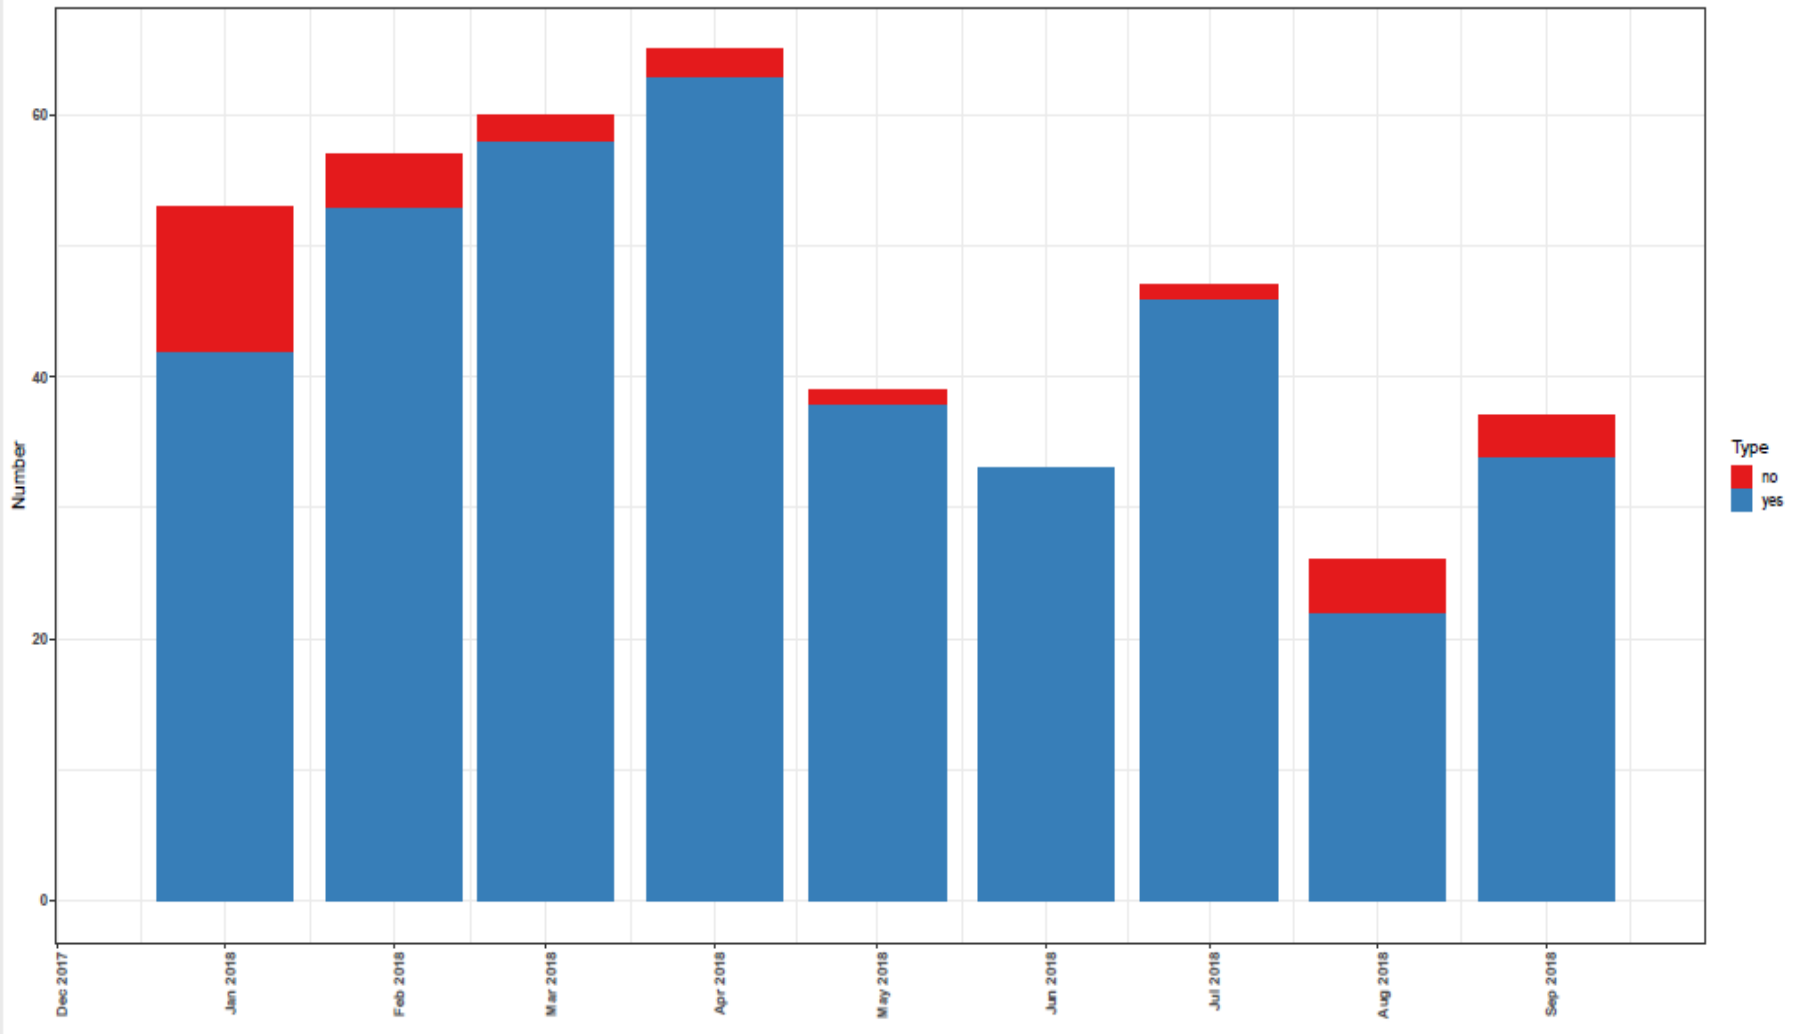

Recruitment to each stratum

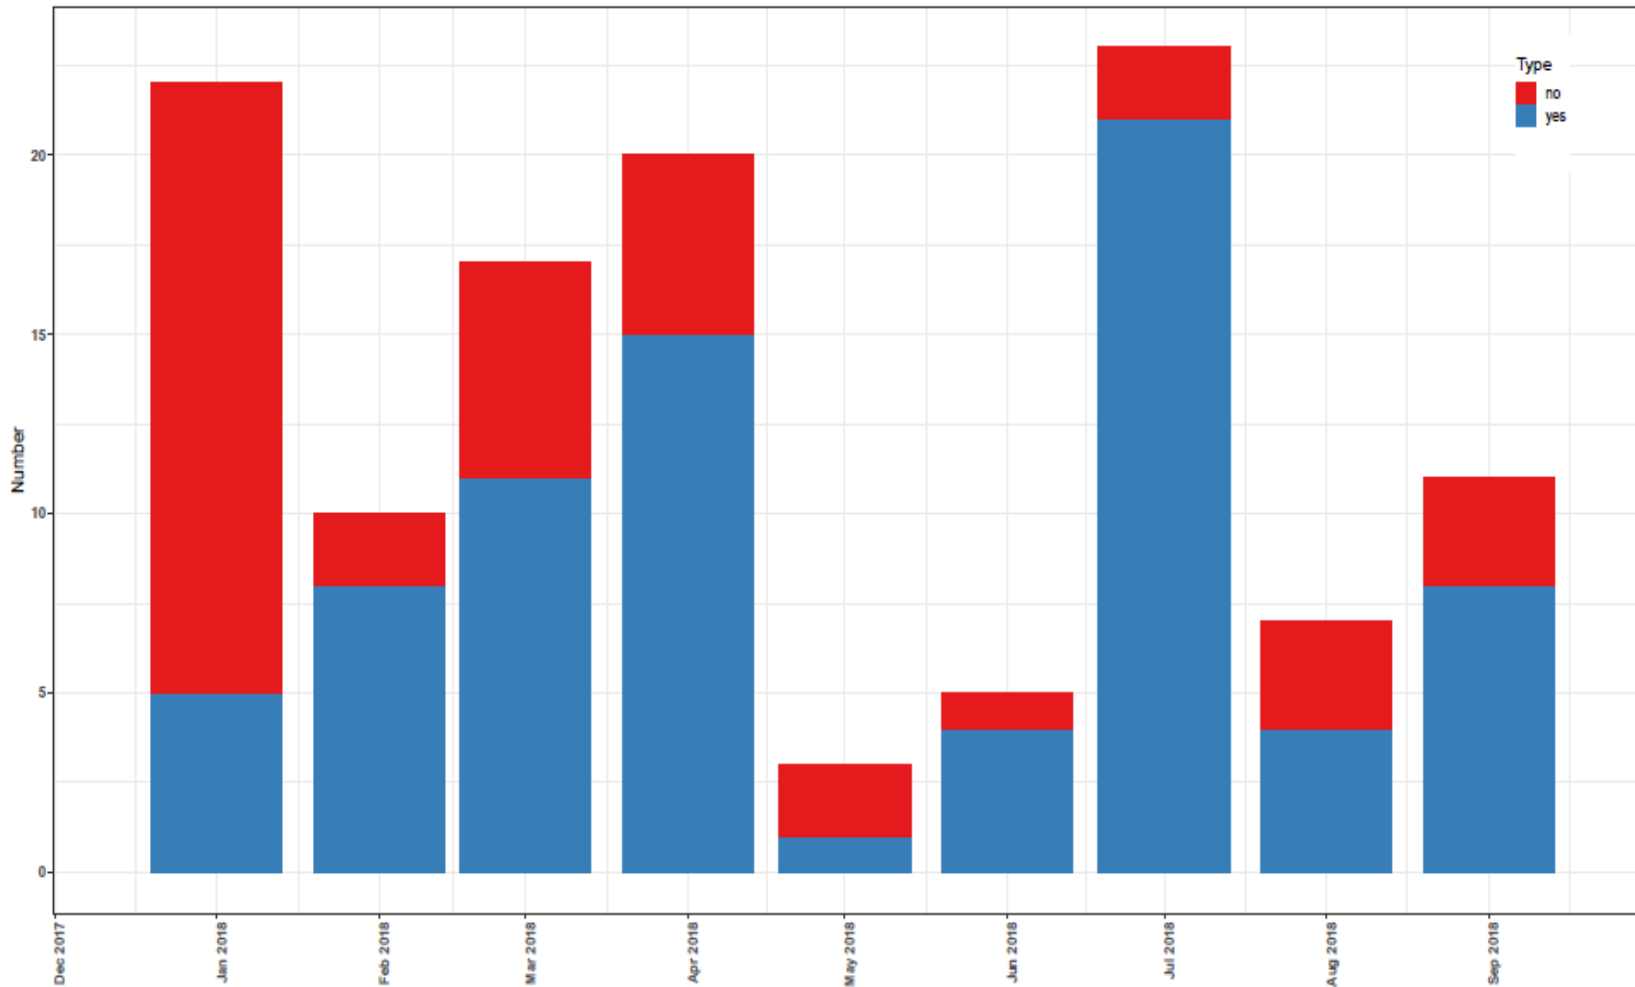

Completed blood collection out of all patients consented for blood

Completed blood collection out of all patients consented for blood

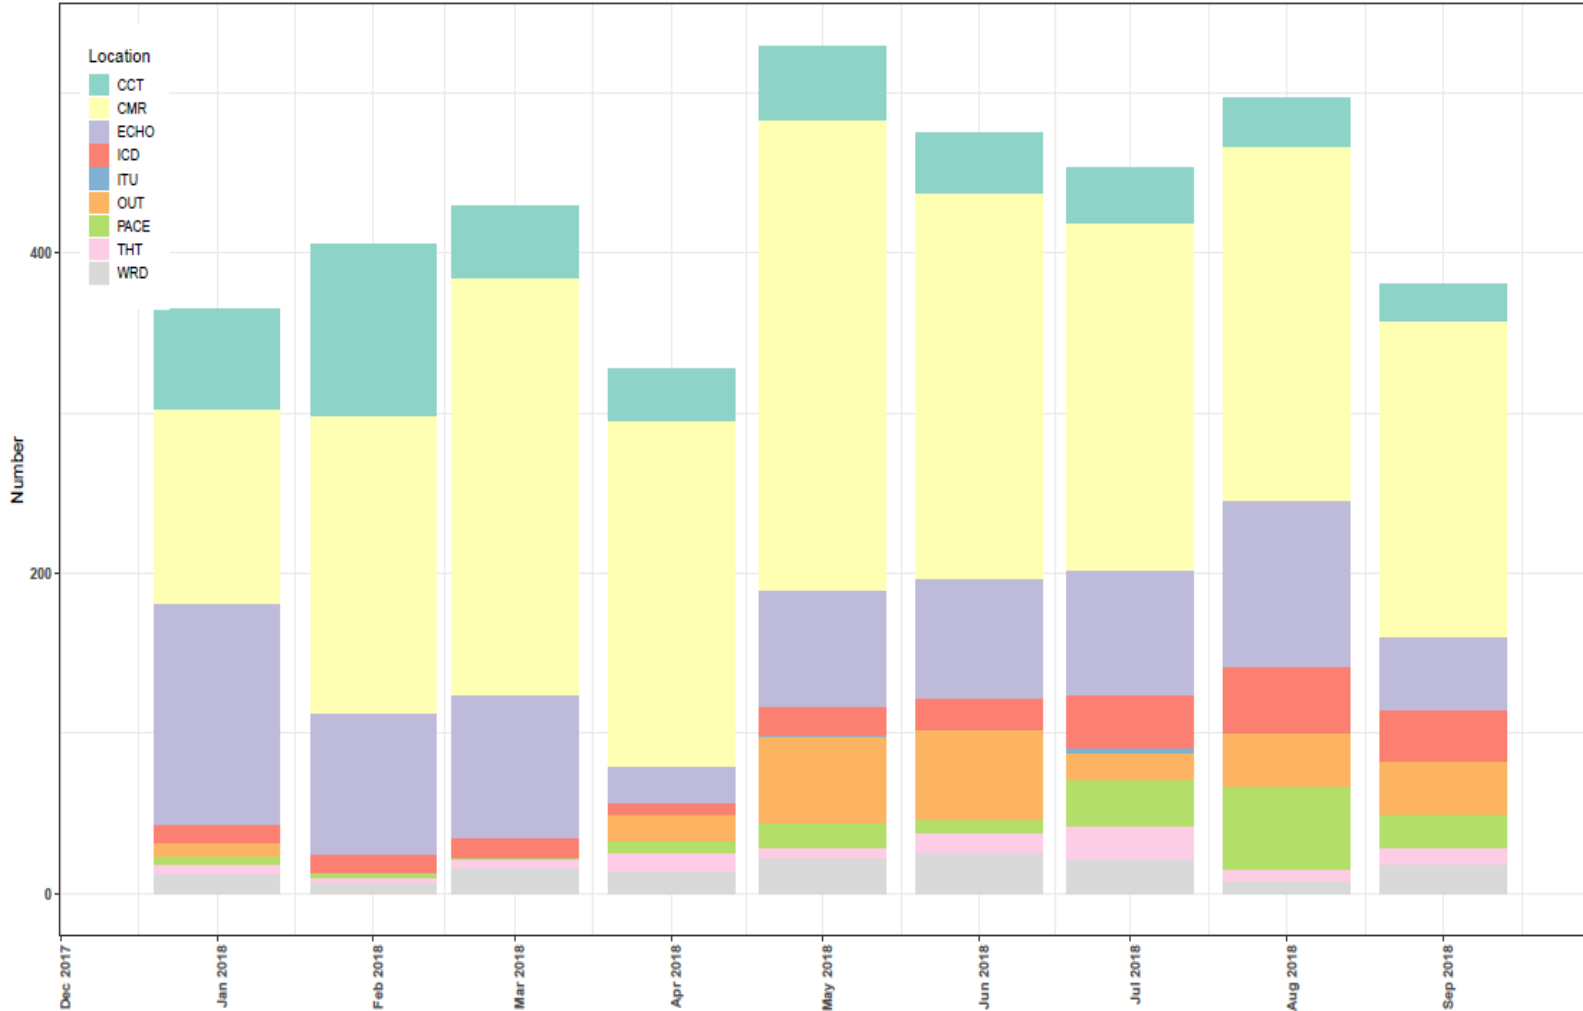

Completed tissue collection out of all patients consented for tissue

Completed tissue collection out of all patients consented for tissue
